PROJECT

E-Challan

E-challan system is an web based application used to solve the problem faced by students of college of Engineering while paying their various academic fees. This problem is mainly encountered at various levels starting from students staff and banking staff students have to go to office and have to collect challan forms, they need to be signed by staff and to wait for payments of challan at bank. Staff members need to maintain bunch of records corresponding to various types of challans.
